“ *My grandfather's goal was to live to be 100 years old. It's remarkable that he lived to be 93, truly a gift! I loved his confidence, words of wisdom, and his passion for travel and life. Cognitively, he was very sharp and I'll miss his stories of the past.*

My dearest husband. He was sharp, and happy, he had a song for every circumstance, he even sang in bed. He loved to travel by ship, plane, train or car. He was a very good driver, he drove thru most USA states, and many of Mexico and the south of Canada, as well as Great Britain: from Land's End to John O'Groats. Life with him was fun.

My beloved husband, I feel your physical absence so deeply in my heart. All around the house, there are objects that remind me of you, we got them together, or you bought something to surprise me. Even when I open the pantry I can see the food that you used to like to eat, including chocolates, candies, certain kind of crackers etc. etc. I can not stop tears coming into my eyes. The memory of you will be always in my soul.

Dear Al, I have been trying to contact you for a year wondering why I hadn't heard from you, so I decided to "google" you only to find your obituary. My sincere condolences to your family Al, and thanks for the memories. When my husband and I met you and Teresa when you drove through NJ on one of your trips, we had such a nice dinner together. How I loved to hear the stories of when you worked with my Dad at Vauxhall motor works in Luton UK, where we both were born. May you R.I.P. Al, thank you for the memories, and I hope that you and my Dad are in Heaven watching over the Luton Town Hatters football team, you'd both be pleased to see their progress. God Bless you Al, and Teresa, my thoughts are with you and the family. Sue Gajewski, NJ (Formerly of Luton UK)
