“ I have so many memories of Brenda...But one that comes to mind Ron and I were dating and we ran into Brenda at the casino and I introduced them and Ron stuck his hand out to shake her hand and she just smiled really big and locked him up in a big ole Brenda bearhug. Brenda always had a smile that brighten your day. If she was your friend she was your friend everyday not just now and then. She cooked for my daughter's wedding reception making pulled pork and it was awesome. My daughter's in laws made.the statement "These Oklahoma folks know how to make BbQ" they were from California. Brenda and I had lots of stories and wonderful memories. I missed her when she moved back to Kansas and I will always miss her.

To the family you are in my prayers and may God wrap his arms around you and help heal your grieving hearts.

*I will miss you my friend
