“ *Debbie was my friend! I worked with her at the hospital in Pittsburg for several years. She used to come up to the switchboard on her breaks & we'd chat. The night of the Franklin tornado, we were both working. We were checking in on each other during that scary, eventful time. When she couldn't get an answer on her parents' phone & needed to leave, I called her supervisor for her so she could go.*

Through the years, I'd see her around and occasionally, we'd do something together. We went one year to Apple Butter Makin' Days in Mt. Vernon & had a great time.

I enjoyed our conversations & friendship. I'll miss seeing her & saying hi. She was a kind, accepting person, & I think many of us are better for having known her. She'll be missed!
