“ George,  
*I am so sorry about Debra, I just stumbled onto her obituary today. For years Debra was my right hand when she worked in my law office, more than once I contacted her to see if she would be willing to work with me again. Sadly, I was never able to convince her. I have always raved about her, she had the nicest disposition/personality, a great sense of humor...she was an exceptional person. My children absolutely adored her and still reminisce about visiting with Debra when they would come up to my office after school.*  
*I am truly sorry for your loss. Take care-*
