“ I remember the first time I met him, I was staying with his cousin Miss Joan and her husband Ken in California he came hauling a load and Joan was so excited to see him she kept telling me "you have to meet him, he's the sweetest guy and he looks just like Kenny Rogers" and she was right. After moving back here in Missouri I got to know Norma and Donny and have been blessed knowing them. I know miss Joan's showing him around in heaven excited as she was here on earth.
