“ One of my favorite memories of Gene was when I was manager of the IT group at the NSSL. Let's just say doing data entry can sometimes be tedious. Occasionally I would walk up to Gene's desk and his eyes would be closed. When I called out his name, though, he immediately said “AMEN!!” I always got a kick out of that Even asleep Gene could always give a good come-back!!

“ Gloria and family,

We were so saddened to hear of Gene's passing. Our hearts and prayers are with you all.

We are grateful Gene did not suffer long, and we know he is with Jesus and has his new heavenly body, and is without pain now.

Gene was a wonderful man and friend, and I will always cherish the memories of working with him at the National Seed Storage Laboratory in Ft. Collins. Gene had a way of always making the best of any situation and he could always make me laugh. I look forward to being with him in heaven!
