“ *I remember when I was being suspended from school. Dad came to pick me up and you were being placed in ISS as dad got in the office.*

“ *I remember spending almost all my teen summers as your babysitter. I don't have too many childhood memories without you, Katie, Raymond, and Damien in them. If only I could turn back time and be your babysitter just one more time, but this universe uses time as it's one and only currency so I know that in said given time we will meet again. Give mom a hug for Kaleb, Katie, and I. I'll always miss you Bully. Gone, but damn sure never forgotten!*
