“ *Kim was the one person who took the time when we were kids to teach me how to do cartwheels. You see I was made fun of a lot in school. Cheerleaders were top notch, which I was not. Kim thought if I could do cartwheels better than any of them, surely they would have to stop. I don't know if they ever did stop making fun of me but the time spent with her learning was one of my favorite memories.*

I met Kim thru the Hope Center, set and cried with her when she told me she was really sick. Wonderfully sweet lady that will missed by all. Prayers for everyone
