Hi Matthew. From what I can tell, yes, this is the gifted actress...and Los Angeles friend of mine. 🙏

Hi Brian. I see that now too...12/10/2021. I do know she had planned to move to Missouri years ago and this place is in Joplin, MO. I have tried to reach her for a few years but her emails would bounce back and her phones were cut off. :(I just found this video of her from 9/2018 playing cards with a little girl. <https://youtu.be/HWpAbruxWbI> There is a "Marji Martin" channel on YouTube with this video and one short.

This is not the page for the actress No. it seems she died suddenly since she was born in 1962. was she vaccinated? Most likely this is the reason why they never put the cause of death for those people who died between 2021 and currently.
