“ *Mary was never afraid to face anyone & if you didn't want her opinion don't ask her it cause she would give it to you weather you liked her answer or not
if it hurt your feelings she'd tell you straight up well don't ask me then
She not only looked out for her children & grandchildren if you were @ her house or her @ yours she'd look out for yours too
she had a big heart but don't ever cross her cause she never forgot it
she had a temper but i only saw it when someone crossed her
never mess with her family*
