“ *Deepest sympathy to family and friends. Paul was my uncle. Many good memories of him. He always was there for the family. He always made time to visit my mom (his sister Virginia) in the nursing home. She cherishes those visits and all the phone calls he made to just talk with her. He even once took her home with him and Florence for a treat away from the nursing home for a week's stay with them. She loved this. We will miss Paul greatly. Our hearts are saddened. We know though that he has gone home to the Lord and is rejoicing with family members and friends that have previously passed.*

*Paul - please give my dad a big hug and tell him I'll see you both again one day. Love you!*

*Joann Richardson*

*Paul was a man who served and loved our Father, Yahweh. I had the great honor to know him. We lived many miles apart, yet talked by phone and corresponded regularly. Paul was a major influence in my life when I decided to follow Yahweh's Covenant Message - he was an inspiration to me, a great teacher in Yahweh's Word and Truth.. He loved his family dearly and often shared photos of them with me and telling about their lives. You are dearly missed brother Paul. We shall meet again ...*

*My deepest sympathies to my dear friend Paul Burnham And I am especially sad because I just found out today about his death. He emailed me 2 days before his death and by the tune I replied, he never replied back and I thought that was strange because he always replies to me. In any case my deepest condolences and I am curious as to how did Paul die because he was so healthy and even beat Cancer 20 years prior anyone know? Let me know thanks*

*“ Paul was a very loving individual, not many like him. I remember answering the phone when he would call dad and he would talk and talk, but the things he talked about really had meaning. He always had an answer to any question you would ask. I remember him staying on the phone for hours. When he would visit I would try to make an appearance to see him and everytime I remember him talking telling jokes. He would do experiments with your body that actually helped in the long run. I will definitely miss his advice on things and the things he taught me, even though at the time I didn't see it useful but I'm very glad I got to experience things with him, as well as my children getting to meet him. You will definitely be missed by many.. Tell grandma and grandpa I said hello and I miss them.. Love always Doug's daughter Chrystal*

“ Paul, Sharon and I will miss you brother-in-law. I will always treasure the time we visited you and got to sample some of those wonderful cantaloupes from that beautiful garden you worked so hard on. We will miss your stories, your kindness and that amazing intellect of yours. Sharon has bragged on how you made that telescope and ground the lenses yourself since the first day we met. You always were there to stand up for Sharon and protect her and I will thank you forever for being her loving big brother. Those of us who were privileged to have known you in the way a family knows someone truly admire your energy and thirst for the truth wherever it took you.

*Rest in peace brother...*
