MC

“ I'll always remember working with Roger. Super guy, smart and could really agitate me when he would walk by the file cabinets and bang in each one to hear me holler. And I'll never forget him and his burnt popcorn! So sorry for your loss.

SF

Mary, Rog carried the tradition on with crushing his empty water bottles to scare me the last week of his life. I will also miss the burnt popcorn smell in my house even tho I use to give him a hard time. You made me smile Mary, God Bless you, Sherry
