DA

“ I just found out about his passing. Scott is someone I will never forget. He was like a brother to me. It had been 36 years since I had seen him but when we saw each other in 2019 it was like we had never been apart. Swimming in the pool, drinking Busch beer (poor tech school students) and smoking a bit too.

TS

“ Scott was the 1st person to show me electronics were reachable and the music that inspired the soul. he will be truly missed, and his legacy is a house hold memory, Because of him i became a component level technician... Thank you Scott. I still have that X-MEN board that had your name built into the high score list.
