Tribute Wall

“ Vickie, I got to know you at Bentonview. I am so grateful for the conversations I had with you , getting to know a little bit of who you are, who you were before your stay at Bentonview. I am so sorry for the suffering you endured, with losing your sisters to this heartless disease and then to be taken yourself. I loved your spunk and your fight for independence and quality of life, you have taught me something about life that you don't even know about. I love what I saw between you and Kenny, you will always touch my heart. I hope you are running and dancing in heaven, and enjoying your morning coffee in peace and happiness forever. ♡
